League Scorekeeping Set Up

DART CONNECT

Tablet / Device

- Teams may bring their own device or the venue may provide one
- Works on almost **ANY** Tablet, Phone or PC/Laptop (9-11" inch "Medium" size screen recommended)
- Compatible with Apple, Android and Windows - *scoring app works on devices as old as iPad Generation 2*
- Download and Install App w/ Safari (Apple) or Chrome (Android/Windows)
- Tablet mounting hardware available from retailers or DIY

WiFi Internet Access

- Existing standard WiFi speeds are sufficient
- Provide the WiFi password to teams for league matches
- Cellular hotspots can be used as a backup
- **Works Offline!** If logged in to the league, the scoring app can keep score, then connect later to sync match data

How to Install the DartConnect App (scan QR code for details)

1. Use a recommended web browser and go to **DartConnect.com**
2. Tap the red button to **"Download Scoring App"**
3. Use the browser "Add to Home Screen"option for full-screen use
4. Log into the scoring app (use a personal account login or ask the league for the special league login credentials)
5. Refer to the captain's guide for instructions on league play
